

Dr. Sci. Zehrudin Osmanovic, associate professor, was born in 1966. In Lukavac. He graduated in University of Banja Luka, at faculty of Technology, department of Chemical Technology in 1991st. where he established the employment relationship as research assistant (1990th-1992nd). At faculty of Technology, in University in Zagreb he attended postgraduate studies (1990th-1992nd). He defended a master's thesis at Faculty of Technology in Tuzla 2000th year.

From the 1994th to 1999th he is employed at the Faculty of Technology, University of Tuzla, as assistant, from 1999th to 2005th as a senior assistant. In 2005th he received his doctorate in the Faculty of Technology, University of Tuzla.

From the 2006th to 2011th he is docent and since 2011. till now an associate professor in the scientific field of technical sciences, the field of Chemical Engineering at the same university.

He is a holder of several courses at the postgraduate doctoral, graduate and undergraduate degree in the Faculty of Technology in Tuzla (Introduction to Chemical Engineering, Heat operations, process measurement techniques, measurement, control and automation of processes, etc.). Scientific specialized in the development of mathematical modules and optimizing the technological parameters of the process industry, with particular oriented strategy to cement industry.

He has published more than 30 original scientific works in magazines cited by the CC, in books and in proceedings of international conferences. Co-author of two university textbooks, "Production of Portland cement" and "Strength and durability of cement composites."

He collaborated on several projects in the field of quality assurance in the field of higher education implemented at the University of Tuzla, associate a series of other projects implemented in the process industry, the head of one of the doctoral dissertation, two masters and more than 35 diploma works.

He also improved at Universities in Tarragona, Girona and Alicante (Spain).

He is a member of the Agency for Development of Higher Education and Quality Assurance BIH, HEA and external expert for the accreditation of higher education institutions and study programs in Montenegro. He is a permanent member of the British Association for Environmental Protection, B.E.N.A. As the auditor of the system 9001, 14001 and 18001 works as contributor for firm TÜV SÜD Sava doo Ljubljana (Slovenia).
